JEREMIAH CALLS TO OBEDIENCE

LESSON TEXT—Jeremiah 7:1-26.
GOLDEN TEXT—Hearken unto my voice, and I will be your God, and ye shall be my people.
PRIMARY TOPIC—Obeying God.
JUNIOR TOPIC—Obeying God.
INTERMEDIATE AND SENIOR TOPIC—Doing What God Commands.
YOUNG PEOPLE AND ADULT TOPIC—Obedience Essential in True Religion.

The prophet stood in the gate of the temple in order that the multitudes might hear him. The occasion was the coming together of the people from all over the country to attend some feast.

I. What God Requires (vv. 1-7).

1. Amend your ways (v. 3).

Their general course of living should be reformed, had deeds giving place to good ones. On the basis of this change, God would permit them to remain in their city and country. Failure to do this would eventuate in their expulsion.

2. The folly of trusting in religious forms (v. 4).

The people regarded the temple as a charm against evil, irrespective of the condition of their hearts. Without a heart experience, the most sacred institutions and ordinances are valueless.

3. Social justice (v. 5).

The proof of their having reformed was the execution of judgment between man and his neighbor. The proof of one's being in touch with God is his fair dealing with his fellowmen.

4. Not to oppress the helpless (v. 6).

The stranger would likely be ignorant of the laws of the land. The widows and orphans could easily be imposed upon. Protection for the weak is a requirement of godliness.

5. Not walk after other gods (v. 6).

Worship of idols and conformity to heathen customs go hand in hand. True morality is determined by the attitude of the individual toward God.

II. Solemn Warnings (vv. 8-15).

1. Teaching of false prophets (vv. 8-11).

These prophets taught the people that attention to ceremony, and observance of religious forms, exempted them from strict attention to morals. Those who heeded the words of the lying prophets were not slow to steal, murder, commit adultery, swear falsely and practice idolatry. They would even come into the Lord's house and claim freedom to practice such abominations. The sacred temple itself, filled with such worshipers would be a den of robbers.

2. Warning of Shiloh (vv. 12-15).

God owned His tabernacle to be set up in Shiloh, but in Eli's time He gave it into the hands of the Philistines because of the idolatry of the people. (Psa. 78:56-60). Even so would He do with the temple, the city and the whole country. This He had already done with Ephraim, the northern kingdom.

II. The Hopeless Condition of the People (vv. 16-20).

Their propensity to do evil was so strong that all efforts at reclamation were futile.

1. Pray not for them (v. 16).

There is such a thing as sinning unto death, in which case prayer is useless (1 John 5:16).

2 Entire families devoted their energies to that which provoked God's anger (vv. 17-19).

This was done by young and old—men and women. This they did to provoke God's anger. He ensured them the outcome of such conduct would be their utter confusion.

IV. Judgment to Fall (v. 20).

Because the people poured out their offerings to idols, the furious anger and wrath of God would be poured out upon man, beast, tree, and the fruit of the ground. How this has been fulfilled, the history of the Jews makes clear.

V. Obedience Better Than Sacrifice (vv. 21-26).

The prophet appealed to history to show that God requires heart service rather than the observance of religious forms. Blessings came to Israel through obedience, while cursing followed disobedience. On the condition of obedience to His requirements, God promised to own them as His people and to bless them.

Confidence in Prayer

And this is the confidence that we have in Him, that, if we ask anything according to His will, He heareth us; and if we know that He heareth us, whatsoever we ask, we know that we have the petitions that we desired of Him.—1 John 5:14, 15.

No Discharge in That War

There is no man that hath power over the spirit to retain the spirit; neither hath he power in the day of death; and there is no discharge in that war; neither shall wickedness deliver those that are given to it.—Ecclesiastes 8:8.

A Neglected Bible

A neglected Bible means a starved and strengthless spirit, a comfortless heart, a barren life, and a grieved Holy Ghost.—F. B. Meyer.

GAMBLERS PREY ON SEA TOURISTS

Atlantic Liners Are Plagued by Card Sharpers.

London.—With more American tourists visiting Europe than ever before, the Atlantic liners are being plagued more and more by the professional gambler.

Acting in conjunction with the British and American police, and with the steamship officials afloat, the French authorities have contrived to make at least one haul, and some prominent gamblers now find themselves debarred from obtaining a ticket from any of the big steamship companies.

This card sharper trouble is one of the greatest of all that beset the paths of the steamship companies. They do all that they possibly can to check it, but there is a difficulty at every turn.

It is no offense to play cards on board ship, and it is no offense to play poker just a little better than one's opponents, so that the ships officers have to be very certain that there is actual cheating going on before they can take any legal action.

Every passenger is warned against playing cards for money with chance acquaintances, or indulging in high stakes with anybody. Yet there are many who will not be advised and who resent any interference with their liberty, particularly any suggestion that they are not well able to look after themselves.

Gentlemen of the "profession" are generally well primed with good stories and have all the knowledge of the world which delights the eye at traveling.

So the lines are always working at a disadvantage in their efforts to protect those who will not take advice, and occasionally it is necessary to resort to unorthodox means to circumvent the gamblers.

There is one story concerning a famous western ocean officer who was a remarkably clever conjurer. He saw perfectly well how two rich young passengers were being plucked, but had not the legal proof necessary to take official action. So he took a hand in the game, and won back for the two youngsters every penny that they had lost with a little over for seamen's charities.

Lindbergh Has Sister Living in Minnesota

St. Paul, Minn.—Now, at last, the secret's out. Col. Charles Lindbergh has a sister!

In the little one-street town of Red Lake Falls, Minn., the home of Lindbergh Christie, half-sister of the famous flyer, lives happily with her husband, George Weed Christie, editor of the town's one newspaper, and her two children.

There's not a person living in Red Lake Falls, a town of 2,000 citizens, who doesn't know the comely little wife of the editor of the Red Lake Falls is a sister of the illustrious colonel.

But outside of the town few have ever heard of Mrs. Eva Lindbergh Christie. Few even suspected Colonel Lindbergh had a sister. The reason for the secret is that Mrs. Christie is extremely modest and fears publicity.

"You see, it's this way," she explains. "My mother was Mary Lafond. She died when I was only five years old, and father married again. Charlie was born of that second marriage. Charlie and I were children together in Little Falls, Minn., but we became separated when I went to college. Then I became a schoolteacher and was married to Mr. Christie.

"Charlie and I were together about five years ago when father died, and then we separated, and until he came to Minneapolis after his Paris flight I didn't see him. But we did have a nice reunion in Minneapolis. I'm glad Charlie's doing so well and I hope when he gets married he will bring his bride here to visit us."

Lost Diamond Ring Is Found in Pretzel

Sandusky, Ohio.—Edward Spraw, local grocer, has good reason to believe he was born under a lucky star. For years Spraw wore a valuable diamond ring. One day he noticed it was gone from his finger. All efforts to recover the ring were futile.

Spraw's son, Edwin, called on his girl friend one night. The young lady's mother passed a bag of pretzels around the guests. One of the girls present put her hand in the bag for a pretzel but withdrew a diamond ring instead. It belonged to the elder Sprau.

Students' Signs Lead to Color Discovery

Troy, N. Y.—The rapid fading of flaming colors on student athletic signs here has led to the discovery of an entirely new set of fast colors at Rensselaer Polytechnic Institute.

The man who made the new colors is Dr. F. W. Schwartz, professor of analytical chemistry, whose interest was stirred by the sorry appearance that exposure gave to campus signs. As a chemist he knew that fading of colors is caused by ultra-violet rays of light, and he set out to find a hues that would produce printing ink colors but resist those rays.

He found this base in thorium, one of the elements which are the fundamental substances of which all known earthly matter is composed. Thorium is used in making ordinary incandescent gas mantles. He experimented with thorium because it is related closely to elements from which colors ordinarily have been made.

The better durability of the new colors is established by tests with concentrated ultra-violet rays, whereby in the laboratory it is possible to produce in about ten minutes the equivalent of a week's exposure to bright daylight.

The colors are in the form of metallic powders, of every shade of the rainbow. Samples of them in small bottles are mounted in a row on a large, white placard. This parade now are similar bottles filled with some of the color powders now in commercial use, which fade more rapidly. To the eye the rows are exactly similar, except as they may differ in tone.

Although these colors were designed for use in making inks, Doctor Schwartz says they may be used for fabrics such as silks and cottons.

THE heavy lead body of Kurfees Paint forms a tough, solid film that is proof against extreme hot and cold weather. It *hides* the discolored surface. It's the LEAD in paint that forms the protecting film and retains the brilliancy of color. Kurfees Paint contains 20% to 40% more lead per gallon.

Compare Paint Formulas—here's Kurfees:

Pure Carbonate Lead	80%
Pure Zinc Oxide	20%
	100%

Tinted with Pure Colors, ground and mixed with Pure Linseed Oil and Dryer—that's all.

It's the greater quantity of pure carbonate lead in Kurfees Paint, scientifically combined with pure linseed oil that makes it flow smoother and more evenly under the brush. It saves time and work in applying, hides and protects more square feet of surface per gallon and lasts longer in all weather. You can paint better and for less with Kurfees.

Come in and let us show you the beautiful color combinations and how little it will take to paint your house right.
